

MISSOURI PACIFIC LINES

Eagle River Division

Ferritin City Steel Crew

Responsibilities

Switch Ferritin City Steel, making pickups, setouts, and interplant transfers between industry spurs and the W. Ferritin yard.

After completion of interplant switching, run the South Park to Ferritin City Turn which delivers cars to and from the W. Ferritin yard.

Procedures:

Ferritin Steel Mill Switching

- On duty at Ferritin Steel Mill, W. Ferritin.
- Request "track authority" from Dispatcher any time your work will foul the mainline.
- Moves across the mainline to access the yard must be made with caution.
- Notify the Dispatcher to terminate your train after all switching work is done and the switch engine is back on the designated track.
- A telephone is provided at this location to communicate with the Dispatcher.

South Park - W. Ferritin Turn

- On duty at South Park Yard.
- Review manifest and train at South Park.
- If indicated, pick up and/or drop cars at the scrap yard prior to departing the yard. Complete this work before notifying the dispatcher of your intent to depart the yard.
- Upon arrival at Ferritin, leave cars on the siding, make pick-ups from the FC Steel yard and return to South Park Yard.
