

MISSOURI-KANSAS-TEXAS

Eagle River Division

OAK HILL TURN

RESPONSIBILITIES

OAK HILL TURN – EASTBOUND

Train KOHT is staged at Sassafras. Pick up your train and travel eastbound to Beaver Cove to perform any work before continuing east to Oak Hill. Don't forget to work Eagle Distributing located just west of Oak Hill if needed. At Oak Hill, drop your train on the main. Remove the road power and park it on the old Mopac lead next to cars that MP stores there. Use the Katy dedicated switch engine (#33) to break down the train and build the outgoing train. Build outgoing train on the Build Track.

OAK HILL TURN – WESTBOUND

When outbound train is built, join your road power to the cars on the build track. Recouple your caboose as you depart westbound toward Beaver Cove. Complete any assigned work at Beaver Cove and South Park before terminating your train intact with power and caboose at Sassafras on the MKT Staging Track.

Purina Mills is Oak Hill's largest Industry.

M-K-T serves Coca Cola Bottling.
