

MISSOURI-KANSAS-TEXAS

Eagle River Division

OAK HILL TURN

INTRODUCTION

Several jobs are available for the two-person Katy Crew: among these are the Purina Mills Switch job, Checkerboard Yard Transfer, Oak Hill Turn, and Beaver Cove Transfer.

RESPONSIBILITIES

Purina Mills Switch Job

The Purina Mills Switch (PMS) crew is responsible for moving cars between Checkerboard Yard and Purina Mills industry spurs, and moves between plant spurs as may be required. Pulled cars are built into a train by the crew and taken to staging.

Checkerboard Yard Transfer

Checkerboard Yard Transfer Crew is responsible for taking Train #352 to Checkerboard Yard and classifying its cars at the yard.

Oak Hill Turn

The Oak Hill Turn crew is responsible for the operation of train #114T, servicing industries along the M-K-T between Sassafras and Oak Hill. This train does not normally service Purina Mills or Checkerboard Yard.

Beaver Cove Transfer

Beaver Cove crew builds train by picking up cars from Possum Siding, Beaver Cove customers, and the MOP-MKT interchange track. These cars are delivered to South Park Yard. Train returns from the yard with set outs for these same locations.

Purina Mills is Oak Hill's largest Industry.

M-K-T serves Coca Cola Bottling.
