

Carondelet Crew

U.S. STEEL, BENDIX CORP, PILLSBURY, CAR FLOAT, IVORY YARD

Responsibilities

The Carondelet Crew is responsible for managing Ivory Yard and servicing all Carondelet customers, and assisting trains with arriving and departing cars for Carondelet. This is a 2-person crew, working independently, but coordinating moves to and from Ivory Yard.

Steel Mill Crew: Builds the Northbound Carondelet Turn & MP transfer to Lindenwood Yard, switches Steel Mill, and classifies cars received from inbound local and from SLSF Yard Transfer.

Typical Work:

- Classify cars left by the southbound Carondelet local (CALN).
- Exchange loaded and unloaded coal hoppers between yard & mill.
- Pull cars from mill tracks and build outbound manifest (CALN).
- Pull cars from Ivory Yard and spot to various steel mill tracks.
- Classify cars left by Frisco transfer from Lindenwood Yard.
- Build outbound MoPac yard transfer bound for Lindenwood Yard

Pillsbury/Car Float Crew: Switches Pillsbury, unloads car float & classifies cars to Ivory Yard. May be called on to run to Lindenwood Yard Transfer, CALN, and other jobs as indicated.

Typical Work:

- Unload car float and move cars to Ivory Yard
- Exchange cars between Pillsbury Milling and Ivory Yard
- Pilot northbound Carondelet local (CALN) when it is ready to depart
- Pilot MoPac yard transfer to Lindenwood Yard
